

How to Display a Gallery on a Page

1. Once you are logged into your site, navigate to the page you wish to add the gallery too and press the 'Edit Page' button. Alternatively go to **Settings > Pages** and press the edit button on the page you wish to add the gallery to.
2. In the content editor, drop your cursor where you wish the gallery to sit on the page, and press the **Gallery** button.

3. Once you have pressed '**Gallery**', you will see a pop up with some drop down menus:

- a. Select which gallery you want to display from the drop-down list.
- b. Select which display style you want.
- c. If you have selected 'Grid' as the display style, you can tell the page how many images you want displayed on a row. If you have 6 images in a gallery for example, it would be best to choose rows of 3.
